#### **Policy**

Although the school library holds the primary responsibility for the provision of curriculum-related support material, the North Kawartha Public Library shall endeavour to provide additional resources and assistance when called upon and to co-operate with school staff.

#### **Procedures**

1. Library staff should keep local schools informed of forthcoming child and teen oriented programmes and events.
2. The Library's policy is to acquire a broad range of general information resources. It may occur that these materials meet the demands of school projects, but this is not the reason for their purchase.
3. The extent of help offered on school-related projects does not normally include the research for school projects, which is expected to be part of the learning process. However, staff members will give necessary assistance required to enable students to find their own materials.
